PROJECTS

FARFETCH Clone
It is a Fashion based e-commerce website where users can buy cloths, shoes etc.
Source Code

- **Tech-Stack :** JavaScript | HTML5 | CSS3 |
- **Features:** better user experience and animations, users can search for any product.
- **Areas of Responsibility:** I handled the men's and women's page

YouTube 2.0
It is a YouTube Clone where users can search and play any videos
Source Code

- **Tech-Stack :** JavaScript | HTML5 | CSS3
- **Features:** better user experience and animations, autoplay videos, able to mute videos and fullscreen the videos
- **Areas of Responsibility:** I made this whole project from scratch.
